Hello,

I have been instructed by the Building Officials office to email regarding a request for fence height exemption. We purchased our home in May of 2022 and have been doing updates to it since then. The fence and gate on the east side of our property at the side of our garage going into the back yard was not done properly, and we will be replacing it. We have two young children, and a working and up to code fence and gate is required. I inquired with the Building Officials office and was told by them that the maximum height we can do is 4'. We will be matching the existing fence to our neighbours property, Mike Jubb, and would like to keep the height the same as his, which is 6'. I will include a photo marked with where our fence will go.

Our address is 310 Lakeland Cres, Beaverton.

Please advise if you require any other information from me at this time, or next steps I can take.

Thank you kindly,  
Samantha O'Connor
