

July 24, 2023.

Council Members,

My wife and I have owned property at 25950 Maple Beach Road for 50 years, and it has come to our attention that the Township is considering a park or beach on the Township right-of-way, to which we have no concerns. For that reason, they are planning on putting up a chain-link fence on the property line.

Photos show how close to our cottage the fence would be – 65 inches to the road corner and 38 inches at the middle of the cottage. There is also a difference of 3 feet from the old survey from 2007 on the road side. The water side is the same for which survey ^{or} doesn't know why.

For this reason, we would like to ask if the Township would consider selling us 10 feet or 15 feet of the right-of-way which is 66 ~~inches~~ ^{FEET} wide. That would still leave the Township 50 feet or so for whatever they plan, also getting money for a park, fence, or whatever they need, along with giving us enough room so my wife could still have her gardens. We would also be able to get around the cottage for painting and maintenance.

Years ago, I cleaned up the front of the right-of-way as it was filled with old tires and brush from lawn services or whoever dumped things there. I have continued to keep it cleaned and cut as it benefits us as well as the township.

Thank you for your consideration.
