Subject: Re: Speed Limit Reduction Request

Good morning Paul,

I do hope your summer is going well and you are enjoying some time off. I emailed you a while back about my inquiry to reduce the speed limit by our hill on concession rd 2 to 50km/h.

I understand that the township receives a lot of complaints about speeding and speed limit, and that the towns response is to install those traffic strips to collect data, but I am hoping that this unique situation (in terms of sightline issues) is taken into consideration.

I would very much appreciate consideration to this inquiry, and would welcome a site visit so that you can see first hand the sight issue, and why this speed limit change would benefit the safety of me and my neighbours.

Thanks

Matt
