Subject: BESS

Hi there,

hoping it is not too late to write regarding my concerns on the proposed battery energy storage system.

There is already too much being imposed on small town Beaverton, firstly with the Supportive Housing Project and limited resources to support it. To introduce a facility that can be highly dangerous in a town that does not have the emergency services to protect the residents should something terrible occur is reckless and ill thought out.

Voicing my opinion AGAINST this proposal.

Thank you,

Samantha Houston
