Hi Fernando,

After running our simulation of the guard being re-located to Simcoe St & Mara Rd I can confirm that based on current enrollment, the guard would be supporting the following number of students with a safe walking path to school:

11 students to Holy Family

78 students to the new Beaver River PS

It is not common practice for our office to present requests to Council, but rather provide the information to Township Staff regarding the request.

Thank you for adding this to the March Council meeting. If there is any clarification or other data you need please let me know.

Regards,
Lauren
