

Beaverton Town bypass
November 5, 2025 1:25:44 PM

To the Brock Town Council,

I, Rita Schryer, ask for an item to be added to the agenda for November 10th, 2025 meeting. I request to have Thorah Con. Rd. 5 at Osborne (turn east) to be a town by pass route to Hwy 12. I request that a sign be made to offer an alternate way back to Hwy 12. I also request that the corridor between the traffic lights on Hwy 12 be widened. Why? I am a senior and reside in downtown Beaverton. Since the new subdivision has been built on the west side off of Mara Rd. there has been a huge adjustment to the increase in everyday traffic through town. However, my concern is about the cottagers who turn north off Hwy 48 onto Osborne through Beaverton and then onto Hwy 12 off the north side of Mara again. A big problem in more ways than just cutting through Beaverton is that they tend to drive fast and are impatient drivers. I've nearly been hit 3 times at the Mara/Simcoe St crosswalks! There are large numbers of seniors and children that use the downtown. The excessive car carbon is overwhelming on Friday afternoons and Sunday, you can't walk out or drive out.

I appreciate for town council to consider to offer an alternate way back to Hwy 12 at the Conc. Rd. 5 to take some pressure off the travel through Beaverton.

Thank you,

Rita Schryer
