**Date:** July 18, 2022 11:32:24 AM

---

We live at [REDACTED] Sideroad 17, Sunderland. This is [REDACTED] south of Concession 2

1. We would like to attend the meeting
2. We would like this comment noted

We have lived at [REDACTED] Sideroad 17, Sunderland since Aug 1987. Our well is 110' deep and drilled on Sept 12, 1974.

In the 35 years we have lived here, the water has been tested on a regular bases through the Uxbridge Town Hall. In all of those tests, we have had readings of 0 except one test many years ago that had a reading of 1.

If the actions by the gravel company damage our water supply, we will pursue legal action.

The company has also proven it cannot be trusted to be upfront and honest – by the sneaky placement of the original sign 400 meters down a dead end road, Concession 2, hidden from general view by bushes where hardly anyone could see it. Their response at the original meeting was they were legally required to put the sign there.

We do not trust them. This application should be denied.
