Subject: RE Application to rezone and expand aggregate pit at Concession 2 Sunderland (11-2021-RA CBM)
Date: July 16, 2022 1:45:40 PM

I would like to be included in the on-line meeting July 25th at 6:00 pm and to have the opportunity to speak.

I have objections to the rezoning and the expansion both:

The area is rural for a reason as we live in a rural community for the peace and quiet and the nature we share our land with. I live on the watershed lands and we have very specific requirements for what we can and cannot do and rightly so. We have a moral obligation to protect our environment, and obligation I believe CBM does not share.

The proposed expansion would significantly impact our neighbours, with noise and visual impact as well as disturbing the natural environment. The proposed expansion goes very close to the protected wet lands of the Beaver Creek, 30 feet buffer area is not sufficient to protect the wetland. To say nothing of the fact that they are planning to go deep into the aquifer and I am concerned about the impact that will have on wells in the area and the wetlands.

Carole Ditomaso
