## WHAT IS A KAYAKOMAT?

A KAYAKOMAT is an independent rack for kayaks and Stand-Up Paddle boards that enables locals and visitors to rent the equipment conveniently at any time of day. The rental system is entirely self-service thanks to the digital booking system and the attached smart locks. When customers book their equipment, they automatically receive a code that unlocks the kayak.

The KAYAKOMAT enables easy access to nature through the increasingly popular activity of kayaking and S.U.P.-paddling. The kayaks are stable and beginner friendly. PFDs (life vests) are included in all units.

Point 65 Sweden, the company behind KAYAKOMAT, is the leading paddle sport company in Scandinavia and has been renting out kayaks in multiple locations throughout Sweden since 2006. KAYAKOMAT by Point 65 Sweden launched in 2020 and will launch in several European countries during 2022 thanks to high local demand.

A KAYAKOMAT is always taken care of by a local Point 65 partner. The partner makes sure it is neat and

tidy and is engaged with the local community.

### The KAYAKOMAT = A kayak rack

The kayak rack is manufactured in Sweden. The main material, such as poles and cover, consists of galvanized steel, corrosion class 2.

The cover is constructed for snow fall of 1.5kN/m<sup>2</sup> and wind speed of 25m/s.

The longer sides are each covered with an informative banderoll made of perforated PVC.

The KAYAKOMAT can be placed on its own on solid ground or sand, or, if needed, with the help of stabilizing wood or plinths.

The KAYAKOMAT is delivered in a packed, flat package and will be assembled on site within a few hours. There is no need to attach it to the ground. It can easily be demolished or moved with a trailer.

KAYAKOMAT needs neither electricity nor water.

The kayaks and Stand-Up Paddle Boards inside the KAYAKOMAT are attached with chains and Smart Locks. The Smart Locks are connected to Point 65 digital booking system.
