Corporation of the township of Brock

To whom it may concern:

**Subject: Fence Bylaw Amendment Request - 1 Butcher Street, Beaverton**

**Issue:** I am the owner of 1 Butcher Street, Beaverton and am requesting an amendment to the maximum height and length requirements of the township's Fence Bylaw.

**Request:** I would very much like to add a privacy fence along the side yard of my property which as you can see in the picture, is my main yard area for useable space. At this time, I'm aware that I am allowed to build a 4 foot high fence, however there will not be enough privacy at only 4 feet high as the sidewalk goes by that area. I would like to have the fence built at 6 feet high, along the front portion of the side yard that faces Butcher Street, to the side of my home with a gate to get in (as marked in picture) for the privacy that will allow for me to use that area of the yard.

**Privacy:** Butcher Street is a main ingress and egress route in my subdivision. Extending the height and length of this fence with a gate, would ensure greater privacy and security for me as otherwise, I am completely open.

**Aesthetics:** As this area of Butcher Street is visible to all vehicle and pedestrian traffic, installing the privacy fence would be more aesthetically pleasing, while ensuring my privacy and maintaining security for me.

Thank you for your time and consideration.

Respectfully submitted.
