**Subject:** Regional road 50/51 intersection

---

Good evening mike , I'm a resident of gamebridge and I was wondering as to who would be responsible for monitoring the traffic comming through gamebridge. I live on the corner of 50& 51 and have seen on many occasions people speeding and now with construction on the talbot bridge on highway 12, I see this only getting worse. Also they have posted no heavy trucks and is obviously ignored on a regular. My house is very close to the road and have 3 kids so you can see my concern. I've spoke to many of the neighbors and speed bumps or possible 3 way stop being the only solution to the problem at hand. Please understand the concerns that are at hand are serious and can't be ignored when kids are at risk and not just my own. Thank you for your time.
