Staff Report to the Mayor and Members of Council

From:	Rick Harrison
Position:	Fire Chief
Title / Subject:	Brock/Georgina Fire Protection Agreement
Date of Report:	June 8, 2021
Date of Meeting:	June 14, 2021
Report No:	2021-PS-11

1.0 Strategic Goal/Priority

To provide the citizens of Brock Township a safe, progressive, innovative and proactive Fire Department. Through a unified forward-thinking organization, we will create commitment to excellence through professionalism, honesty, integrity and respect for our customers and each other.

2.0 Issue / Origin

The present Fire Protection Agreement between the Township of Brock and the Town of Georgina expired on December 31, 2019.

3.0 Background

The Township of Brock and the Town of Georgina implemented a fire protection agreement in 2001. The designated area specified in the agreement is bound by Lakeridge Road to the west, Sideroad 17 to the east, Thorah Concession 1 to the north and Brock Concession 10 to the south.

The agreement was put in place to have Georgina Fire Department (Pefferlaw Station 1-8) automatically respond to fire department incidents within the designated area, due to the proximity of their fire station.

The designated area specified in the agreement consist of approximately 200 structures. In the past 6 years Georgina Fire Department has responded to approximately 21 fire department incidents within the designated area.

The Georgina Fire Chief and the Brock Township Fire Chief over the past several months continuously discussed the implementation of a new agreement and the importance of negotiating a fair financial agreement in the best interest of the citizens of Brock Township.

Georgina Fire Department stressed the importance of maintaining a retainer (standby) fee in the agreement to assist in maintaining fire department equipment and staff to be readily available to serve the protection area to the best of their ability.

4.0 Analysis

Importance

Due to the geographical makeup of Brock Township, populations are mainly located within the three large communities of Sunderland, Cannington and Beaverton. To ensure coverage in some of the outlying areas of the community and to provide effective time related coverage a fire protection agreement with Georgina Fire Department is essential.

When an emergency occurs the residents of Brock Township deserve to receive the quickest response available to assist in preserving life and property. With the Pepperlaw fire station located in-close proximity to the designated area and securing an automatic response of the Pepperlaw fire station will most certainly assist in achieving the quick response requirement.

Services

Georgina Fire Department provides the following Fire Protection Services:

- Suppression of structure fires and related out buildings
- Suppression of grass and brush fires
- Suppression of motor vehicle fires
- Extrication services as a result of motor vehicle collision/accident
- Carbon monoxide calls, with reported symptoms
- Emergency medical services as per the Brock Township/Durham Region tiered response agreement

Financial Obligation

Presently, the Township of Brock agrees to pay the Town of Georgina a retainer (standby) fee of \$8,000 per year, plus additional costs for fire department equipment responding to the incident as per the remuneration rate set by the Ministry of Transportation of Ontario.

It is important to note that the retainer (standby) fee has not been subject to a financial increase since 2012.

It is also important to note that the retainer (standby) fee is considerably less than the financial obligation of many other surrounding fire services for similar agreements with their neighbouring fire departments.

The Town of Georgina also agrees to pay the Township of Brock for fire department personnel and equipment attending a requested response within the municipal boundaries of the Town of Georgina as per the remuneration rate set by the Ministry of Transportation Ontario.
